

Ethnohistory

ASE's Quarterly Journal

Over 1400 individuals and institutions currently receive ASE's peer-reviewed journal *Ethnohistory* in print and electronic form. The journal reflects the wide range of current scholarship inspired by anthropological and historical approaches to the human condition. Of particular interest are those analyses and interpretations that explore the experience, organization, and identities of indigenous, diasporic, and minority peoples that otherwise elude the histories and anthropologies of nations, states, and colonial empires. The journal publishes work from the disciplines of geography, literature, sociology, and archaeology, as well as anthropology and history. It welcomes theoretical and cross-cultural discussion of ethnohistorical materials and recognizes the wide range of academic disciplines.

The web site ethnohistory.org contains the editorial statement, information on submitting manuscripts to the journal, on reviewing books for the journal, and on *Ethnohistory's* presence in indexes and electronic databases. This information can also be found following the Editors' statement in each issue.

About the ASE

The American Society for Ethnohistory (ASE) was founded in 1954 to promote the interdisciplinary investigation of the histories of the Native Peoples of the Americas. The ethnohistorical method, as it has come to be known, involves developing histories informed by ethnography, linguistics, archaeology, and ecology. Today the ASE, is a thriving organization of over 1,000 scholars and readers.

The ASE is the preeminent international organization in the field and sponsors the journal *Ethnohistory*. In membership and purpose, it represents the interests of communities as well as academics. It emphasizes a variety of disciplines, including cultural anthropology, history, American Indian studies, archaeology, ecology, and linguistics. The unifying factor is a commitment to the mission of our association - professionals from a variety of backgrounds who are helping to create inclusive histories of indigenous and other peoples around the world.
